Less than three weeks until the EU Elections: Vote for health!

There is power in the MS community. Everyday MS allies support one another, work to improve the lives of people with MS, empower people to live the lives of their choice and deal with the challenges together. You have the power to put healthcare and improving the lives of people with MS on the European political agenda. Use your vote in the upcoming local & EU Elections and vote for health!

#EMSP2019 Annual Conference Final Practicalities

Just 3 days to go to our next spring conference. We are very excited to welcome you to Vilnius this week. Know more about the fantastic line-up of speakers who will help us to learn more about digital health in MS management. Check out the final programme of the conference and final practicalities to enjoy the conference to the fullest!

Share your thoughts and shape our conference

Do you have 4 minutes? We want to hear from you! Even if you can't join us this week, you can set the tone of our upcoming #EMSP2019 conference and shape our discussion! Answer five simple questions about digital health and your MS through this survey!

I would like to fill in the survey!
YPN Series: Helen’s story from Hampshire, UK

In this Young People's Network Series article, Helen Chandler, a 33-year-old mother of two little boys living in Hampshire UK, diagnosed with relapsing-remitting multiple sclerosis (RRMS) in June 2014, shares her experience of becoming an MS advocate at both local and European level. Read more

MS Data Alliance is now available on our website

The MS Data Alliance project aims at influencing a mind-shift on the vital importance and multifaceted usability of good quality real-world data – urgently needed as additional evidence for proper decision making by health authorities. It is designed to boost research and enable better outcomes for the broader MS community. Read more

World MS Day 2019
