The 35th ECTRIMS Congress is just around the corner 😱.

If you are attending, make sure to drop by our exhibition stand (D03) to greet the EMSP staff 🖐️, to learn more about our projects and to win a bursary ✈ for the #EMSP2020 Annual Conference in Madrid, Spain by taking a quiz.

Don’t miss out! We are preparing a wide variety of activities 😊.

Just a few of them:

**Wednesday, 11th September @ 16:00 – 17:00 Meeting Room K24**
Info session for everyone interested in the latest developments in MS Data Alliance

**Wednesday, 11th September @ 18:30 – 19:30, Meeting Room M17**
Informal meet-up with the members of the Steering Committee of MS Nurse PRO

**Thursday, 12th September @ 11:30 – 12:30 Meeting Room B9**
Info session for everyone interested in the latest developments in MS Data Alliance

**Thursday, 12th September @ 12:30 – 14:00, EMSP Booth (D03)**
Presentation and Q&A on the EU co-funded research project N2B-patch

Our Projects

**Research and innovation: 13 things people with MS expect from N2B-patch**

In 2017, the N2B-patch (Nose-to-Brain-patch) project was awarded a grant by the European Union’s Horizon 2020 programme 🎉 for Research and Innovation.

We embarked on this 4-year journey with a consortium of committed scientific experts 🌐 and partners to support the development of a new device that would transform the landscape of drug delivery systems for people with multiple sclerosis (MS) and potentially for other diseases.

Here are the 13 most important things people with MS want to know about this innovative EU funded research project.

YPN Series: Daniel’s story from Scotland

Daniel’s life changed forever when he got diagnosed with multiple sclerosis (MS) at age 15, but he learned how to build the momentum of change himself.

Another aspiring young MSer shares with us how he reached acceptance after his diagnosis and how he became an MS ambassador and advocate.

Imagine 2029: Our data, our health, our care – 20th Anniversary of EHTEL

EHTEL 2019 Symposium

3-4 December 2019 in Barcelona, Spain

Save the Date to join the EHTEL Anniversary Symposium on 3-4 December in Barcelona

Help EHTEL imagine 2029. For its 20th Anniversary, EHTEL will shift from the Brussels tradition and convene the Digital Health Stakeholder Community in Barcelona for their annual symposium under the motto “Our data, our health, our care”.

- Learn about the most important challenges which face Europe as it moves forward on the health and care front to 2029.
- Understand how the digital dimension has grown into a significant game-changer in health and care.
- Join EHTEL to witness the overwhelming role of data in health and care, for example from a service and trust perspective.
- Debate on how to prepare and maintain sustainable AI-friendly ecosystems in digital health.

Register for the EFNA Workshop on Access

As part of their Training Initiatives for Neurology Advocates (TINA), the European Federation of Neurological Associations (EFNA) is planning a meeting on Monday, October 28th and Tuesday, 29th in Warsaw, Poland to explore the topic of ‘access’ with a focus on HTA.

The workshop will give participants an opportunity to discuss both specific access challenges and successes in their countries/disease areas, and participants will be tasked with drawing up an interactive roadmap for neurology patient engagement which would lead to improved access for all.

Would you like to attend? There are bursaries available!

**Deadline for application:** Friday, September 20th at 12pm CET
