MS Barometer 2020

MS Barometer 2020 is coming up with an improved questionnaire, through which, we hope that our Member Societies and EMSP can strengthen our advocacy efforts at national and European levels.

On 30 September we launched the data collection and asked our members to nominate one focal point (from the MS Society) for the MS Barometer data collection who will coordinate the data collection from various national stakeholders and act as the main coordinator in charge for submitting the responses in the online system.

If your MS Society hasn’t done that so far, please indicate the name and email address of your nominated focal point at programme.coordinator@emsp.org as soon as possible.

Our Projects

Paediatric MS Workshop in Brussels

On 27 September 2019 we gathered key stakeholders - informal Caregivers, Nurses, Neurologists, MS societies, children and young people living with MS, as well as industry partners – into a workshop to strategise development of a Consensus Statement on Recommendations to support caregivers of paediatric MS.

MS Data Alliance in 2019

During the last 9 months the MS Data Alliance (MSDA) team has been working hard to implement the key priorities of the initiative. Here are their main achievements of the project in 2019 so far, as well as their plans for the rest of the year.

Among others, on 20 November 2019 the MSDA team is gathering the entire community of stakeholders in Baveno, Italy for a Stakeholder Engagement Meeting.

MS Sessions ‘19 festival programme

Along with the Shift.ms we are excited to present the MS Sessions ‘19 festival programme.

Next week we will be welcoming 150 young people with MS from across Europe to the two-day festival in Bucharest to connect with other young ‘MSers’ and feel empowered to proactively manage their MS.

If you can’t attend MS Sessions ‘19 you don’t have to miss out. Follow the festival’s hashtag to stay up to date on what’s going on – #MSSessions19
What we learnt at ECTRIMS 2019 – Part 1

What were the main take-aways of the largest multiple sclerosis research meeting of the world? Here are some of the breaking🔥🔬research news that we collected for the European MS Community.
