

Challenges for MS Nurses

Bernadette Porter MBE

Consultant Nurse

NHS Innovation Fellow

Disparity of:

- Access
- Availability
- Standards of specialised MS nursing care across Europe

MS Nurses as Champions and Leaders

- Create standards for MS care in the region
- Work with patients and stakeholders to create and test new models of care
- Champion effective communication systems and data collection in practice

Clinical Commissioning Groups

1. NHS Barnet
2. NHS Camden
3. NHS Islington
4. NHS Enfield
5. NHS East and North Herts
6. NHS Haringey
7. NHS City and Hackney
8. NHS Tower Hamlets
9. NHS Newham
10. NHS Waltham Forest
11. NHS Barking and Dagenham
12. NHS Redbridge
13. NHS Havering
14. NHS Herts Valley

1. University College London Hospitals NHS FT (Queen Square)
2. Royal Free London NHS FT (and Barnet and Chase Farm Hospital)
3. Bart's Health NHS Trust (and Whipps Cross and Newham hospitals)
4. Barking, Havering and Redbridge NHS Trust
5. Homerton Hospital NHS FT
6. Whittington Hospital NHS Trust
7. North Middlesex University Hospital NHS Trust

TENTH REVISION

ICD-10

INTERNATIONAL CLASSIFICATION OF DISEASES

ICD-10 is a new code set for reporting medical diagnoses & inpatient procedures.

Key Messages:

- Admissions and costs are increasing across region
- Numbers of people admitted for a day are increasing
- Patients travel a lot across the region

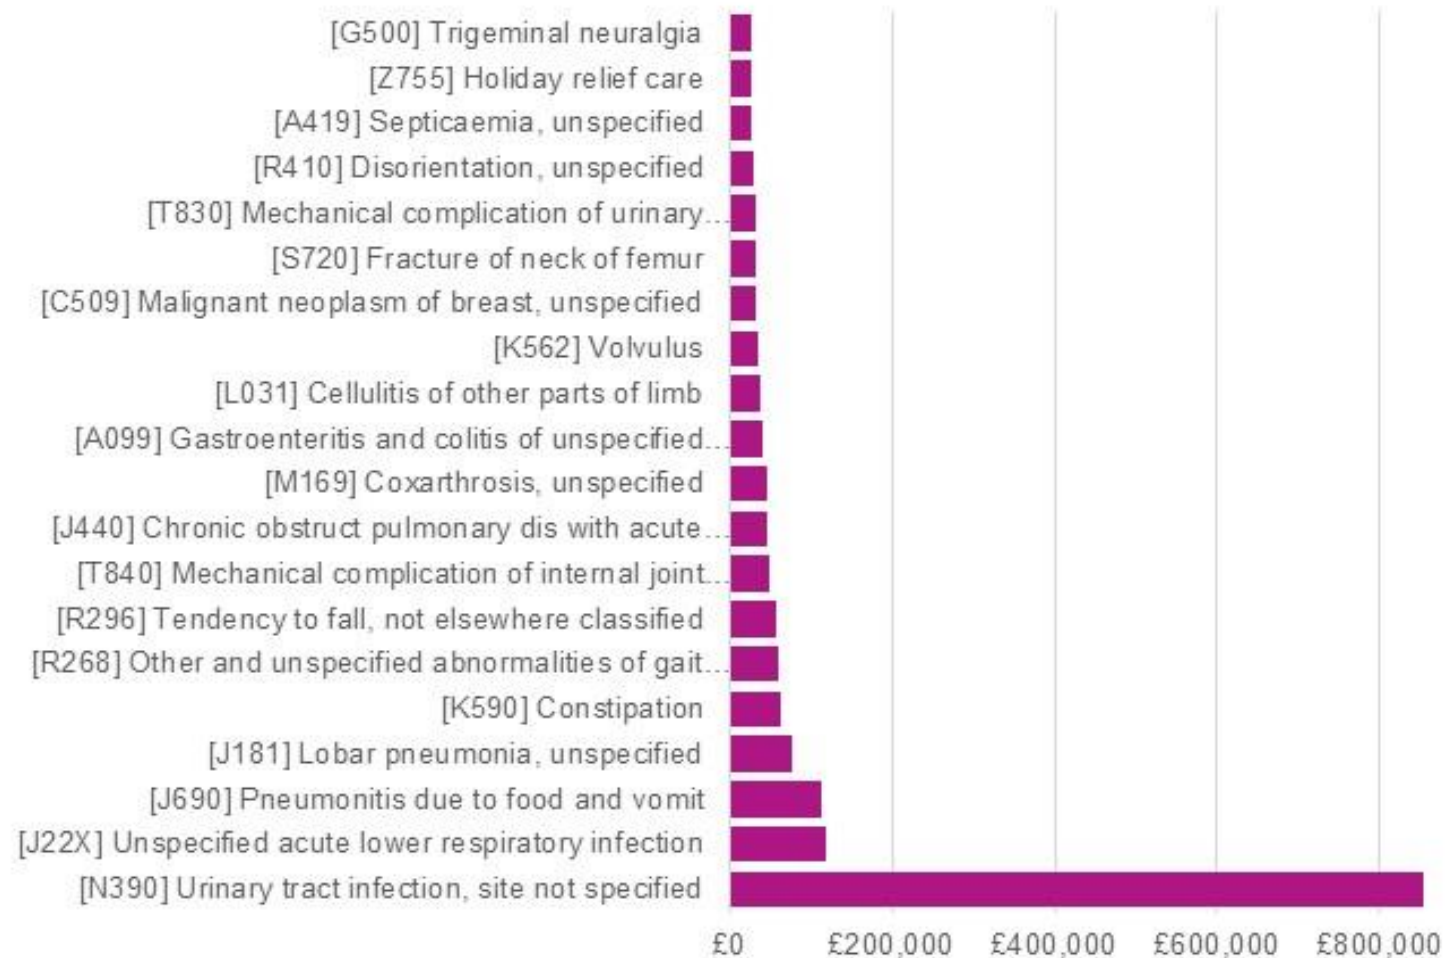

- The main reason that people with MS had unplanned admission was for treatment of urinary tract infections
- The costs of urinary tract infections in 2012/13 potentially attributed to people with MS was huge
- These costs are only for patients admitted into the hospital – other costs such as social care, days off work etc are not quantifiable

What were the top 20 conditions that people with MS needed unplanned admissions for?

How much did these unplanned admissions cost
